### BACKPACKING INTO THE BACKCOUNTRY OF GRAND CANYON NATIONAL PARK

Submitted By Myrna Simms

Backpacking in later years can be challenging, but a marvelous way to explore places not usually seen is through day hikes, especially in the 1.2 million acres of Grand Canyon National Park. The Grand Canyon is often explored via the “corridor” trails from the south and north rims to the Colorado River. Trails “off-the-beaten path” into the more remote areas of the Grand Canyon usually require multi-day backpacks. Despite the fact that canyon backpacking is extremely demanding, Grand Canyon National Park receives approximately 30,000 requests for backcountry permits each year. The park issues 13,000 permits, and close to 40,000 people camp overnight in the backcountry.

Elisabeth Wheeler of the SaddleBrooke Hiking Club has been privileged to explore much of the Grand Canyon backcountry via backpacks from the South Rim and North Rim of the Grand Canyon. Elisabeth will offer a photographic journey of numerous backpacks ranging from moderate to strenuous on Wednesday, November 16, 4 p.m. in the HOA1 Activity Center. Elisabeth will also provide backpacking tips she has learned from “trial and error.” A social hour will follow in the Agave Lounge of the SaddleBrooke Clubhouse at 5 p.m.

For more information about SaddleBrooke Hiking Club programs, contact Myrna Simms (517-488-8644).

### “LITCH” LITCHFIELD MEMORIAL HIKE November 22, 2016

In the September/October Newsletter, we learned of the untimely passing of Warner “Litch” Litchfield. Litch was a wonderful man and one of the Club’s most popular guides. We sorely miss him.

Litch loved leading hikes for the club, and his “signature” hike was to the formation behind SaddleBrooke off the Charouleau Gap road called Big Rock Dome. If you ever did a Club hike to Big Rock Dome, the chances are that Litch was the guide. This hike will forever be associated with Litch in the hearts of veteran SBHC hikers.

He took personal interest in maintaining the trail up to the summit of the dome and would make extra trips there on his own with pruning tools to keep the trail passable for his hikers.

To honor Litch, the SBHC is offering a hike to Big Rock Dome on Tuesday, November 22. We will leave the Mountain View parking lot at 8 am. We will then carpool to Unit 21 and hike the traditional route through the CDO wash to a point where we climb to the Charouleau Gap road and then do the short bushwhack trail to the summit of the dome. We will be able to stand on that summit and silently honor our good friend Litch in one of his favorite spots.

Please check the Hike Description section at the end of this newsletter for the complete description. This hike is rated C! and is 7 miles in total distance.

Hope to see you there.

## PIMA CANYON HIKE IN OCTOBER

Submitted by Elisabeth Wheeler

When fall temperatures arrive SaddleBrooke, hikers return to their favorite trails. Pima Canyon has a delightful riparian area within the canyon and three very old dams. SaddleBrooke hikers Sandra Sowell, Susan Hollis, Janet Fabio, Norm Rechhemmer and Elisabeth Wheeler set out to reach the 3rd dam. However, the monsoon overgrowth added challenge to the hike and slowed the hikers down. The hikers stopped at the 2nd dam and enjoyed the views down Pima Canyon.

## NOW YOU CAN GET AN ARIZONA STATE LAND PERMIT ONLINE!

Submitted By Tim Butler and Susan Hollis

Many of us SBHC hikers enjoy hiking trails, which are located on Arizona State Lands. Some examples close to SaddleBrooke are the 50-Year North and the Baby Jesus trails. Getting a permit for recreational use of State Lands is not expensive (\$15.00 for an individual permit, \$20.00 for a family), but previously the only way of obtaining the permit was through the mail. Now, however, it's possible to get the permits online. See the following information from the Arizona State Land Department:

State Land Permits Available Online

The Arizona State Land Department recently made the process of purchasing a recreational use permit much easier through their online portal. No more writing checks or driving to the State Land Department office in downtown Phoenix! Just the

click of a button and a small charge to your credit card and you instantly receive legal recreational access to over 9 million acres in Arizona.

An Individual Permit grants a single person access to State Trust land for certain types of recreational activities including bicycling, bird watching, GPS-based recreational activities (geocaching), hiking, horseback riding, off-highway vehicle (OHV) usage, photography, picnicking, and sightseeing. A Family Permit grants a family unit (two adults and their children under 18 years of age) access to State Trust land for recreational activities.

A 15-foot wide right of way for the Arizona Trail has been secured so you can cross approximately 91 miles of State Land without a permit (mostly on passages 6, 7, 14 and 15). If you plan on traveling outside the 15-foot corridor to camp, explore, etc. then it is strongly recommended that you obtain a Recreational Permit. Get your permit at: <https://land.az.gov/recreational-permit-portal>

## SADDLEBROOKE HIKERS VOLUNTEER ON THE ARIZONA NATIONAL SCENIC TRAIL

Submitted by Elisabeth Wheeler and Mary Croft

Ruth Caldwell, Roddy Wilder, Elisabeth Wheeler, Ray Peale, Karen Cusano, Niel Christensen, Kent Naugle, Brenda Dawson, Terry Caldwell

REI donated the funds for a 1.7 mile re-route of the Arizona National Scenic Trail in Oracle State Park. This new route takes the Arizona Trail off an adverse, rocky road previously utilized by the Arizona Trail. Our SaddleBrooke Hiking Club is responsible for the maintenance of the 8+ mile Oracle Passage of the Arizona Trail. Nine SaddleBrooke hikers participated in an REI sponsored work event to finish the newly cut trail. The SaddleBrooke hikers joined about 50 other REI volunteers in a significant work effort.

You are invited to join SaddleBrooke hikers on November 16 for the next Work Session on the Arizona Trail. Volunteers will leave the Mountain View parking lot at 7:30 for 3 hours of satisfying trail work. Volunteers will continue to trim back the summer overgrowth and clear/create water diversion bars. For more information and/or to sign up call Elisabeth Wheeler at 818-1547, [elisarick@wbhsi](mailto:elisarick@wbhsi), or Mary Croft at 651-270-1660, [mbcroft45@mac.com](mailto:mbcroft45@mac.com).”

Brenda Dawson and Roddy Wilder are working on drainage issues.

Elisabeth Wheeler, Brenda Dawson and Kent Naugle are smoothing out the trail.

## HIKING IN NORWAY

By Roy Carter

Norway is mostly known for the incredible fjords formed 10,000 years ago by the receding glaciers, but between those fjords are some incredible land features. Reaching most of these features involves some hiking, although the views from the roadway are usually magnificent. Our recent trip was planned around a piece I found on the internet called “The 10 Most Breathtaking Views in Norway” (<http://www.openmindedtravel.com/philosophyadvice/top-10-most-breathtaking-views-in-norway/>). In the 3 weeks we had allotted for the trip, we could reach 7 of them (leaving 3 in northern Norway above the Arctic Circle for a future trip). It took some juggling to fit these into a 3-week itinerary, but with a car rental, we did it, and even had one day to visit downtown Oslo.

Fjord below Besseggen Ridge

The first hike was to Besseggen Ridge north of Beistolen on Gjende Fjord, followed by Flydalsjuvet on the Geirangerfjord, Alesund from the Aksla overlook, the Nærøyfjord (which is one of the two fjords on Norway in a Nutshell) not from Bakkanosi as suggested in the article, but from Rimstigen just below it, Preikestolen (aka Pulpit Rock) above Lysefjord near Stavanger, Trolltunga (the troll's tongue, a remarkable geologic oddity) north of Odda, and Bergen from the Floyen overlook at the top of the funicular. Also visited by hike (although not in the article) was Kjeragbolten, on Lysefjord but at the upper end.

The Kjeragbolten

There are a couple of photos here, but the best thing for those interested is to view the Youtube video at <https://www.youtube.com/watch?v=6aGtbXySg2E>. There are three other videos there covering non-hiking, more touristy stuff during our visit to this fantastic country.

## SMART PHONE “FIRST AID APP”

Submitted by Rob Simms

**SMART PHONE “FIRST AID APP”** First aid advice at home or on the trail! The American Red Cross has a very nice “First Aid App” for smart phone users. Best of all it is free and available for iPhone & Android users through their respective app stores. It provides basic emergency information at your fingertips, even in areas with no cell service. The emergency section outlines recommendations for a number of emergency health issues. Built in features allow you to call 911 directly through the app should it be necessary. You might consider adding it to your phone. I have it on mine. ... Rob Simms

## SBHC GOES BACK TO SUPAI

November 3 to 8, 2016

November 7 to 12, 2016

Submitted by Dale Leman

In November 2015, 18 members of the SaddleBrooke Hiking Club hiked into the city of Supai, a Havasupai tribal village in the Grand Canyon. The post hike reviews were great, so plans were made to repeat again this November. This year 34 of our members signed up and will take the journey down into the remote village

on an organized tour managed by Northern Arizona University. This year two trips are being offered. The first trip starts on November 3<sup>rd</sup> and ends on November 8<sup>th</sup>, while the second starts on November 7<sup>th</sup> and end on November 12<sup>th</sup>. The trip is for 5 nights and 4 days of mostly “C” level hiking.

The highlight of the trip will be the hike down into the canyon to Supai, a Havasupai tribal village, deep in the Grand Canyon. This town is accessible only by foot, horseback, or helicopter. While we hike we will focus on geology, ecology, and Native American Heritage of the area. A couple of miles below the village are some of the most beautiful waterfalls in the United States; New Navajo Falls, Havasupai Falls, and Mooney Falls. If you search the internet you will see plenty of spectacular images. This is also one of the most unique and remote places in the country.

The literature provided said this was for “seasoned hikers”. As some of us felt we needed to get more “seasoned” before we set out on this journey, a special set of 7 conditioning hikes were set up to prepare us for the journey. The hiking guides organized a list of progressively more difficult hikes. The initial hike was a “D” hike, followed by four “C” hikes and two “B” hikes. The hope is that we are prepared physically so we can really enjoy this experience. I am sure we will have stories to tell!

Pace: Moderate [87, 7:30 AM, \$3 Paid by club].** Come and join the fun — it's nice to work side by side with other hiking club members, as we help maintain the "Oracle Passage" section of the Arizona National Scenic Trail. This 7.5 mile section starts at the American Flag TH, ambles through washes and across low ridges speckled with high desert plants just east of Oracle State Park north to Highway 77. Generally, the work is light, and involves clipping, brushing, raking, pruning, building cairns and developing/clearing erosion control devices. Bring along gloves, hat, water, and pruners. Other tools, if needed, will be provided. The work session usually lasts about 3 hours. Hike 3-4 miles. RTD 41 miles. The club will pay the \$3 driver donation.
